SUMMARY

B.Tech Computer Science student with a growing interest in Data Science and Machine Learning. Currently building skills in data analysis, visualization, and machine learning through hands-on projects, hackathons, and continuous learning. Passionate about solving real-world problems using technology, while also exploring public speaking, collaboration, and effective communication to create meaningful impact.

PROJECTS

HR Analytics Dashboard | Power BI, Python (Pandas, NumPy)

- Built an interactive HR Analytics Dashboard to analyze workforce trends including employee count, attrition, salary distribution, job satisfaction, and gender ratio.
- Performed data cleaning and preprocessing using **Python (Pandas, NumPy)** and created dynamic visualizations in **Power BI**.
- Enabled data-driven HR decision making by identifying key workforce insights and performance metrics.

Coffee Shop Sales Analysis | Microsoft Excel

- Developed an interactive sales dashboard using **Microsoft Excel** to analyze coffee shop sales trends and customer purchasing behavior.
- Analyzed over **149K+ customer transactions** with total sales exceeding 698K.
- Identified peak sales hours (8 AM – 11 AM), top-performing stores, and best-selling products including Espresso, Black Tea, and Hot Chocolate.**
- Utilized Pivot Tables, Charts, and Dashboard features to generate actionable business insights.**

EcoSnap – Plastic Packaging Impact Analyzer | Group Project

- Developed a sustainability analysis platform that evaluates the environmental impact of product packaging using barcode scanning and image analysis.
- Integrated external APIs such as Open Food Facts and Ecolabel Index to fetch product and packaging information.
- Designed an ML/NLP-based workflow to analyze packaging materials and generate a sustainability score with eco-friendly alternatives.
- Collaborated in a team environment to design the website architecture, backend workflow, and user experience.

EDUCATION

Guru Gobind Singh Indraprastha University (GGSIPU)

Aug. 2024 – May 2028

Bachelor of Technology in Computer Science

CGPA: 9.0+

Central Board of Secondary Education (CBSE)

2021 – 2023

Senior Secondary (Class XII)

CGPA: 9.00

Central Board of Secondary Education (CBSE)

2009 – 2021

Secondary (Class X)

CGPA: 9.75

SKILLS

Languages : Python, Java, C++

Data Analysis Visualization : NumPy, Pandas, Matplotlib, Seaborn, Power BI, Microsoft Excel (Advanced)

Database Management : MongoDB, MySQL

Machine Learning : Scikit-learn

Computer Vision : OpenCV

Tools Platforms : GitHub, VS Code, Jupyter Notebook
